1.743.000,00 €

Year(s)

2005 - 2008

Services

Consultant to the Lead Partner for administrative and financial management

Investor

Ministry of environment RS

The project R.A.V.E. Space – Raising Awareness of Values of Space through the Process of Education – deals with problems of education about spatial planning and sustainable spatial development in primary and secondary schools. It searches for new ways of education about spatial development and land use as a contribution to raise awareness of the importance of spatial planning which is considered to be a basic tool for responsible spatial management, land use and territorial cohesion under the terms of sustainable development.

The project R.A.V.E. Space is funded by the Interreg III B CADSES Programme and gathers together 9 partners from 5 countries (Greece, Italy, Montenegro, Poland, Slovenia) who joined forces because they are convinced about the importance of raising awareness about spatial planning and spatial development.

R.A.V.E. Space project meets with the UNECE Strategy of promoting sustainable development through education and is supported by the UN definition »Sustainable Development is development that meets the needs of the present without compromising the ability of future generations to meet their own needs.«

Administrative management consists of the execution of appropriate coordination and controlling of all tasks necessary for the implementation of the project content. The main tasks are:

- correspondence and cooperation with the JTS (Joint Technical Secretariat) and MA (Managing Authority);
- coordination of activities of PP's (Project Partners) and interactions between PP's;
- monitoring and evaluation of activities and project processes;
- assembly and completion of activity reports of individual PP's;
- accrument and unification of reports into summary activity reports;
- preparation of reports for regular reporting to the INTERREG authorities;
-
